

Mystic Smiths

Crafting the weapons of legends

Tableau Building
Engine Builder
Resource Management

In Mystic Smiths, players will take control of a magical blacksmith tasked with crafting weapons for legendary heroes. On your turn, you will roll the 2 Forge Dice (d4) then all players will activate the corresponding part of their forge. If a player rolls an 8, all players will simultaneously activate their entire forge from start to finish, so players must set their forge up for success. Then the current player will take 1 action. Meditate, Study, Remodel, Work, or Craft. Play will continue like this until one player has crafted 3 legendary weapons.
